

# **Biotin-Linked Polyclonal Antibody to Somatostatin (SST)**

• **Product No.:** LAA592Mu71

• Immunogen Species: Mus musculus (Mouse)

• **Ig Type**: IgG

 Purification: Antigen-specific affinity chromatography followed by Protein A affinity chromatography

• Label: Biotin

• **Buffer Formulation:** PBS, pH7.4, containing 0.02% NaN3, 50% glycerol.

• **Form:** Liquid

Concentration: 500μg/mL
Applications: WB; IHC; ICC.

• Standard sizes: 20μl, 100μl, 200μl, 1ml, 10ml

### **SPECIFITY**

The antibody is a rabbit polyclonal antibody raised against SST. It has been selected for its ability to recognize SST in immunohistochemical staining and western blotting.

#### **USAGE**

Western blotting: 0.2-2µg/mL;1:250-2500 Immunohistochemistry: 5-20µg/mL;1:25-100 Immunocytochemistry: 5-20µg/mL;1:25-100

Optimal working dilutions must be determined by end user.

## **STORAGE**

Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.

# **STABILITY**

The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
